REYNOLDS DINNER SET FOR JULY 29

Stone Church Holds . Memorial Services

Last Sunday, July 4, the Old Stone Church paid tribute to members, living and deceased, who were received into the church during the month of July from 1871 to 1936, in the form of a Memorial Communion Service.

In his sermon, Dr. Edwin D. Harvey, interim pastor of the church, mentioned that many loved the Old Stone Church, and that there were now living 41 members of the church who had been received during the month of July. Dr. Harvey also spoke of the late Rev. Daniel J. Clark, who was ordained as pastor of the church on July 7, and who also celebrated his birthday during this month. He also said that the Rev. Clark had received 680 members into the church during his forty years of faithful service, of which 120 were received during July. Thirty of these members are still

He also spoke of Miss Ellen L Thompson, who joined the church on July 7, 1871, and she is believed to be the oldest in point of church membership and continuous active service. She is still living at 214 Main Street.

Dr. Harvey read a poem in memory of those who have passed from our midst, before entering into Communion. The poem was written by a member of the Old Stone Church.

The committee in charge of this beautiful Memorial Service were: Mrs. Henry H. Bradley, Mrs. Charles F. Bates, Mrs. Sydney M. Everett and Mr. E. E. Cowles.

ONION KING WORKS

Just a few years ago Clyde H. Melton of Devine, Texas, headed a \$3,500,000 enterprise and was known as the "World's Bermuda Onion King." The depression came, bank failures wrecked the financial structure of business, and today he is fighting his way back to economic independence as a salesman of toys in a store in Pasadena, Calif.

Rhubarb From Europe Rhubarb was first brought to America for planting from Europe about 150 years ago.

Independence Day

1937

With a spirit of reverence, as well as of patriotism, America observes this year the 161st anniversary of the Declaration of Independence.

At the same time it commemorates the 150th anniversary of the United States Constitution.

Between these two celebrations there is a close relationship. Together they commemorate the fact that our nation was created and constituted the Land of Freedom.

It was the Declaration of Inde-pendence that proclaimed to the world that all men are created free and equal, that they are endowed with certain inallenable rights, that to secure these rights governments are instituted.

It was the Constitution of the United States that gave those principles strength and permanence.

Without that Charter of Liberties, the freedom won by the courage and the self-sacrifice of our fathers would have perished.

To the men who, through those two historic documents, gave sub-stance to our national ideals, all Americans owe a debt of gratitude

To realize what they established for us, it is necessary only to consider the growth in area, in prestige and in the well-being of its people that America has achieved.

To realize from what they protected us, it is necessary only to observe the repression of human rights and of the human spirit which today afflicts so many nations

Independence Day, 1937, thus becomes a dual anniversary. It commemorates our birth as a nation, and it demonstrates that only through the power of human liberty and through government instituted to receive such freedom can tuted to secure such freedom, can a country progress and endure.

On us rests the responsibility of keeping that spirit alive.

LIFE-SAVERS

The drowning of a little girl at Momauguin recently, causes to bring to mind the absolute need of life-savers at Tell, Alice Rosman; Northwest Passthe East Haven shore resorts.

When one realizes the fact that there have been eleven drownings here within a period of ten years (and that is at the approximate rate of one drowning a year) then the necessity for such may easily be seen. This is not a record to be proud of.

It is also realized that accidents are bound to happen, with no one at fault, but there should be life-savers stationed there, whose job it is to do nothing else but be ready on the spur of the moment to rescue those from Zane Grey; Crucible, Ben Ames drowning who would ordinarily drown under present conditions.

JACK BENNY'S SUBSTITUTE: The Job of filling in for the popular comedian during his summer holiday has fallen in the graceful shoulders of pretty Jane Froman. Together with her partner, Don Ross, D'Artega's orchestra and visiting funsters, Jane will carry on Sunday nights over NBC until Benny returns in the fall.

LOVELY Vivian Della Chiesa, left, one of the air's most attractive songbirds, will be a guest artist when HARRY VON ZELL inaugurates his new Sunday evening variety show over the Columbia network July 4 at 7:30, New York time. Right, Harry busking on the script for the inaugural program.

Capitol Presents "This Is My Affair"

The first of the week, Sunday, Monday, and Tuesday, the Capitol screen will present "This Is My Affair," starring that new love team Robert Taylor and Barbara Stanwyck.

The story concerns a young lieutenant and his work in unearthing the activities of bank-robbing ring for the sake of his country, and while doing so, meets the girl of his dreams.

The co-feature is "They Gave Him A Gun," with Spencer Tracy, Gladys George and Franchot Tone. A single and news fill out the program.

Ancient Italian fown

Casinum was the ancient Italian town where Marc Antony was reputed to have held his orgies and where, at the foot of a mountain, the Romans constructed an amphitheater mentioned by Pliny.

Ants Are "Born That Way"

Unlike humans, the remarkable complexity of the structures of ants is attained without conscious thought. Their brains are tiny, but perfect reflex-machines which develop automatically without the painful process of education. They are literally "born that way.

Idea of Some Astronomers Some astronomers regard the Milky Way as the plane of a spiral nebula, with the earth located in one of the arms.

Animals' Ilorns

All horned animals either have bony cores inside the horns, like cows and goats, or have solid horns, like deer and moose. The solidhorned animals shed their horns once a year, the core-horned ones never shed them. The pronghorn, alone of all horned creatures, has horns that grow over bony coresand yet sheds them every year.
