Children Assist In Easter Sale To Aid Cripples

Statewide total of the Easter Seal sale of the Connecticut Society for Crippled Children to-day crossed the \$19,000 mark, according to an announcement by W. Watson House, President. This total includes reports from fifty nine committees, some of them preliminary, with eleven more committees still to report. Since returns continue to come in for several weeks, Mr. House expressed confidence that the final total will be in excess of the \$23,000 raised last year. The local committee, under the chairmanship of Walter H. Palmer, reports a total of \$240.45 raised to date. Mr. Palmer stated that the fact that returns are still coming in indicates that many people have received seals but have overlooked sending their contribution. It is not wise to do this he said, since the Society will need every possible dollar if they are to carry on their broad program through the coming year. Children in the local schools are cooperating in the seal sale. With only half of the schools yet reported their contributions total \$46.90 to date.

Jacocks Offers Bill To Change Civic Charter

An act amending the Charter of the Civic Association of Short Beach was presented, Sub H. B. 997, Incorporations, by Rep. Irving Jacocks. Several appeared for and against at the hearing. Latest information is that the matter will result in a referendum. A copy follows: An act amending the Charter of the Civic Association of Short Beach, Connecticut. Be it enacted by the Senate and House of Representatives in General Assembly convened: Section 1. The following sentence of Section 8, of an act incorporating the Civic Association of Short Beach, Connecticut, approved April 20, 1921, to wit: "and said board shall elect by ballot from its own members a president, vice-president, treasurer and clerk vice-president, treasurer and clerk vice-president, who shall hold office until the first day of August, 1922, or until their successors shall be appointed and they shall also be president, vice-president, treasurer and clerk of said executive board" is hereby amended by substituting in place of said sentence of said section the following sentence, to wit: "And said board shall elect by ballot from its own members a president, vice-president, treasurer, clerk and tax-collector of said executive board, and one person may hold at one time both the office of treasurer and tax-collector referred to herein."

Zoning Chairman Addresses Local Branford Rotary

How soil conservation is proving its own worth to farmers and how farmers are rallying to soil conservation will be the subject of a talk to be given at the regular monthly meeting of the Branford Rotary Club Monday noon. The speaker will accompany his talk with a motion picture on animal and wildlife from the standpoint of soil conservation. The scenario is a simple story of American land as people found it, as they used it, and as they must manage it if it is to be preserved. "The Problem of Zoning in Connecticut Towns" was the subject Monday noon at the weekly meeting of the Branford Rotary Club held in the First Congregational Church. Herbert S. MacDonald, New Haven attorney-at-law, and chairman of the Zoning Commission of the Town of North Haven told of the experiences of his commission.

Board Appoints Art Instructor For Next Year

At its meeting, the Board of Education reappointed all the teachers of the school system with the exception of two who are now substituting for teachers who will return. Miss Margaret Roebbling of Bantam will teach commercial subjects in the high school at a salary of \$1,200. She will take the place of Miss Sarfert who has accepted a position near her home in Pennsylvania. Miss Roebbling will be graduated from the New Britain Teachers College in June. Miss Olga Lyge of Terryville, a student at the New Britain Teachers College, was appointed as an additional commercial teacher. Miss Marian Crandall of Hope Valley, R. I. received an appointment to teach art, Mechanical Drawing, and Blueprint reading at a salary of \$1,300. Miss Crandall is a graduate of the Rhode Island School of Design and is now teaching at Scituate, R. I. The Board sent an expression of regret to Frederick L. Sexton, part time teacher of art in the schools, that conditions require the services of a full time teacher, an assignment he did not find it possible to accept. Increases were granted to teachers according to the terms of the salary schedule. A new form of salary contract was adopted. It was voted to allow the County Parent Teacher Association to use the auditorium and cafeteria of the high school for a meeting of the state association in October.

Casimer Kiczuk of Ansonia. Bearers were Joseph Kaprzycki, Frank Banczyk, Edward Lapowski, Joseph Kasprok, Carol Dougherty, and Vincent Ziolkowski.

Parent-Teachers Plan Convention

The State Convention of Parents and Teachers will meet in Bridgeport April 23, 24. All parent-teacher members are invited to attend. Among those from here who expect to go will be Mrs. D. W. Owens and Mrs. C. Haskell Bush. Among the speakers will be Dr. Joseph K. Falson, Mrs. Lionel M. Dawson, Mrs. H. Odis Howgate and Dr. Joseph G. F. Bolton. There will be about ten round table conferences on the following subjects: "Connecticut's Progress for Teacher Training" and "Education for Home and Family Life." The latter will be led by Wooster Warren. Mrs. Clifford Thompson of Wallingford will preside.

COMMITTEE MEETS WITH MRS. REEVES

The Branford committee of the Children's center met Wednesday afternoon in the home of Mrs. Beauff Reeves of Pine Orchard. Plans were discussed for a public card party to be held in June. The following committee is in charge: Mrs. Reeves, Mrs. D. L. Blanchard, Mrs. R. E. Beers, Mrs. A. W. Bowman, Mrs. Alfred Burr, Mrs. Ernest Craig, Mrs. F. T. Catlin, Mrs. S. A. Griswold, Mrs. John Hart, Mrs. William E. Hitchcock, Jr., Mrs. Alden J. Hill, Mrs. Harrison Lang, Mrs. T. F. Paradise, Miss Olive Pratt, Mrs. Howard Prann, Mrs. M. D. Stanley and Mrs. J. Pierpont Warner.

EMMA OSBORN Buried Tuesday

Mrs. Emma Tyler Osborn, 85, widow of the late Sidney V. Osborn, passed away Sunday night in her home in South Main Street. She was born in Middlebury, a daughter of Daniel Tyler and Elvira Hines. She had been a resident of Branford for the past 63 years and was a member of the First Congregational Church. She is survived by one son, Elden; one daughter, Mabel; one sister, Mrs. Ruth Tyler; and two grandchildren, all of Branford. Funeral services were conducted Tuesday afternoon at the Norman V. Lamb funeral home with Rev. B. Kenneth Anthony officiating, assisted by the Rev. Charles R. Cooley of Meriden. Bearers were: Rudolph F. Bailey, Ray U. Plant, Harold G. Baldwin, Reginald S. Baldwin, Ernest Olson, and J. Alton Jenkins. Burial was in Center Cemetery.

MEASLE EPIDEMIC AT CAMP EDWARDS

It is learned that members of the 208th regiment, Coast Artillery of which Battery H of Branford is a unit, has been quarantined at Camp Edwards because of a measles epidemic. It is understood that no Branford boys are ill but for the present they cannot obtain leaves of absence or receive visitors. The quarantine will be effective until two weeks after the outbreak of the last case.

MUST OBTAIN PERMIT TO BURN RUBBISH

Three or four brush fires each day have been keeping the firemen busy. Most of these have been caused by brush or rubbish burning without permits. The latest being eight acres of New Haven Water Co. property, several acres on the Hummel land, Alps Road and a grass fire on the Williams property, Cedar Street which spread to the barns. Due to the dryness of the season permits are being issued for one day periods and may be obtained from John Russell, Edward Nesbit or Irving Baldwin. Last week it was necessary to refuse all applications to burn rubbish.

COST ACCOUNTANTS STUDY METHODS

On Tuesday evening, April 22, the guest speaker for the meeting of the New Haven Chapter of National Association of Cost Accountants will be Mr. George W. Osborn of International Silver Co. Mr. Osborn has been connected with the silver industry in the State of Connecticut since 1909, when he started as a clerk in the cost department of the Holmes & Edwards Silver Company. This company was later absorbed by International Silver Company and Mr. Osborn was put in charge of the Cost and Payroll Department. In 1925, he was transferred to the Meriden Branch of the Company as factory accountant. After 5 years in this capacity, he was elevated to office manager, where he has devoted much time to office systems and methods and office personnel problems. Mr. Osborn's talk will be based on actual experiences in various phases of his work, but principally he will describe a wage incentive plan as applied to office work. This plan has been installed by International Silver Company with gratifying results and has been extended to include not only dictaphone transcribing, but payroll work and ordering and billing procedures. Mr. Osborn has a member of the National Association of Cost Accountants since 1920, and has served both the Hartford and Bridgeport Chapters as president. The meeting will be held at the Y. W. C. A., New Haven preceded by a dinner at 6:30.

MUST REGISTER DOGS

Owners or keepers of dogs over six months of age are required to license them at the Town Clerk's office by May 1st.

MARRIAGE ANNOUNCED

Mr. and Mrs. Harry Clasen of Damascus announce the marriage of their daughter, Ruth to Mr. Robert Philbrook on Saturday, April 12.

Thou Shalt Nots Of The Borough

Charter Gave Almost Unlimited Power To Borough Officials—Annual Meeting First Monday Of May—Incorporation Approved June 14, 1893—Constituted Board of Health. As amended May 19, 1899 the Branford Borough Charter embodied some interesting Thou Shalts and Thou Shalt Nots. Much consideration must have been given to the writing of the Charter and it was undoubtedly very appropriate for the conduct of 1899. The year 1941 is a different age and some of the 1899 points of necessity now seem out-moded. It may be presumed that the thoughtful and thoroughly respectable officers of the day might have had the deacon's hat in mind when they wrote into the Borough laws: "No person shall throw, toss or sling at any person or at any team while passing along any of the streets of said Borough, any snow ball, snow-balls or ice, or any substance of any kind." Today's problem children, it may be surmised, had nothing on those of the good old days, for slingshots were taboo and offenders where fined to the tune of "not less than five dollars nor more than fifty dollars." It cost a dollar a slide 42 years ago for "Every person who shall slide or coast upon any sled or sleds upon any sidewalks in the borough" shall be "forfeited and pay for each such offense one dollar." Then as now, the Green was a source of pride. "All persons are forbidden making by continued use any new paths upon the public green, and such path already existing as the warden and burgesses shall cause notices to be posted upon shall be discontinued. Any person violating this by-law shall be fined two dollars." Thou shalt not lead or drive horses or cattle on sidewalks. Neither shalt thou wrongfully light, injure or destroy the street lamps. It was forbidden, "All night or walkers wandering from place to place in the night season without any lawful occasion." It was again the law to drive beasts of burden faster than 10 miles an hour on Sundays. Billboard objectors of 1941 could find meat in "Any person who shall post any bills, placard or advertisement on any tree, fence, building or property without license shall be fined not to exceed seven dollars." All public theatrical or musical performances, gift enterprises, sleight of hand, etc. "shall be required to procure a license from warden and burgesses." From the first day of June to the first day of October all dogs running at large shall be muzzled." And did you know that if you gathered in groups of three or more in front of the church and did not move when asked to do so might cost you fifty bucks? No rioting in the good old days! The warden had full power and authority to preserve the peace in said borough, and may suppress all riots and tumults. Times have changed, ah yes, for better or for worse.

ONE HOUR TOGETHER

It will be a treat to hear 600 young, enthusiastic voices tomorrow evening at the Music Festival which culminates a year's work of music study by pupils of the high schools of the Housatonic League.

Music supervisors, six years ago, devised this non-competitive form of reward to those who wished to express their hopes and ambitions via the musical route. The festival is an incentive form of prizes in which no awards are given. It is a festival of the spirit.

BOYS AND GIRL WEEK

John L. Griffith of Chicago, Illinois, "Big Ten" Athletic Club, the national chairman of the National Boys and Girls Week Committee for the United States, in a statement to the press today, commented on the unusually large number of organizations and agencies which are making plans for extensive participation in National Boys and Girls Week for 1941.

JOBS WAITING

June graduates need not look for a job this summer, for a survey of farm labor conditions, conducted by the Extension Service of the University of Connecticut indicates that strong healthy boys will be in demand on the farms.

More than one-third of the farmhands regularly employed on Connecticut farms either have been drafted into Army service or have left the farm to take jobs in factories.

which lead young people into undesirable instances, it has been discovered that bad home conditions, poverty, misuse of leisure time, and lack of educational and recreational facilities are foremost among the contributing factors.

National Boys and Girls Week represents a period during which the attention of the entire community is focused upon the various phases of the life of youth. It goes beyond that, however, for it is meant to serve as a week during which special attention is focused upon youth. It is the hope of the National Boys and Girls Week Committee that ultimately every week during the year shall be considered as a sort of Boys and Girls Week.

CLEAN-UP TIME

Thousands of American communities have inaugurated their annual clean-up campaigns. These campaigns give to every citizen a chance to make a handsome town, and a safer town.

A properly managed clean-up drive helps to lessen the ever-present danger of fire. Vacant lots are moved and leveled off. Old sheds are torn down. Buildings are repaired and painted. Dead trees and bushes are cut out.

THERE IS ONE SURE GOAL

If you have vowed stout across a wide lake in order to reach a definite point on the shore, you know that it's a good idea to look over your shoulder from time to time and make sure that you're still headed right.

OUR DEMOCRACY

Encouraging, on the other hand are some of the accomplishments of industry in defense work in spite of the obstacles and uncertainty surrounding it on every side. It has been announced, for example, that 1,215 airplanes were turned out in March. To point up the meaning of that volume of production, officials point out that the operating equipment of all American airlines—the best equipped in the world—totals only about 400 planes.

Most of them said they would be willing to hire other boys if men were not available. "Readin', writin' and 'rithmetic may be very useful on the farm this summer and the young graduates looking for a job may find that there is gold in soil."

WATCH YOUR STEP!

Millions of dollars are being spent on defense. Watch your step!

TIME TO CHOOSE

A recent authoritative study listed 114 categories of non-defense federal spending for the fiscal year 1942 in which there had been an aggregate growth of \$3,665,197,000 since 1932. That three and a half billion figure is pretty striking, but perhaps even more interesting is the number of specific categories in which increases have been necessary.

If the reader will think back to the start of the past decade of heavy spending, he will recall that dozens of new government enterprises were instituted or greatly expanded because of the economic machine was in low gear, the government must spend more in order to be pretty oblique in accomplishing its purpose, but most Americans accepted the principle in good faith.

POET'S CORNER

Can it be that death through the ages
Has been misrepresented in the pages
Of life's golden book? Can it not
Be rather
That in her arms death can gather
One, in the soft fold of a heavenly cloud
And completely encompassing
The soul? Can it not be
That death's gruesome ally
Is actually a lady fair,
With waves of hair that sweep
And a voice, so musically sweet
That when a heart has ceased to beat
The shadows—then like the breath
Of spring
Would rustle through a harp
string?
Come, we'll pass this vote of tears
To places where there are no
years.
Where at last you'll know for certain
What lies behind the thin curtain
And see what make Eternity.
It might be so. Why can't it be?
—W. J. A.

WASHINGTON SNAPSHOTS

Nobody knows for sure what the future holds for us as strikers in defense industries are concerned. But Washington is sure that whatever happens will be as important as any other phase of the life of the nation that breaks during the months lying immediately ahead.

With the legislature in its reluctant to take on the thankless chore of filling these jobs, so desirable an expectation around Capitol Hill that next week an unusual interest would come from the Governor's office in connection with appointments which he will make to important state positions.

Weekly Legislature Highlights

A distinguished visitor was cheered on Capitol Hill last Thursday afternoon by the scores of Democrats and Republicans each a share of the judicial posts.

The birth-control hearing last Thursday lived up to its name and bitterness of debate. For hours the hearing on a variety of birth-control bills occupied the committee room in the capitol.

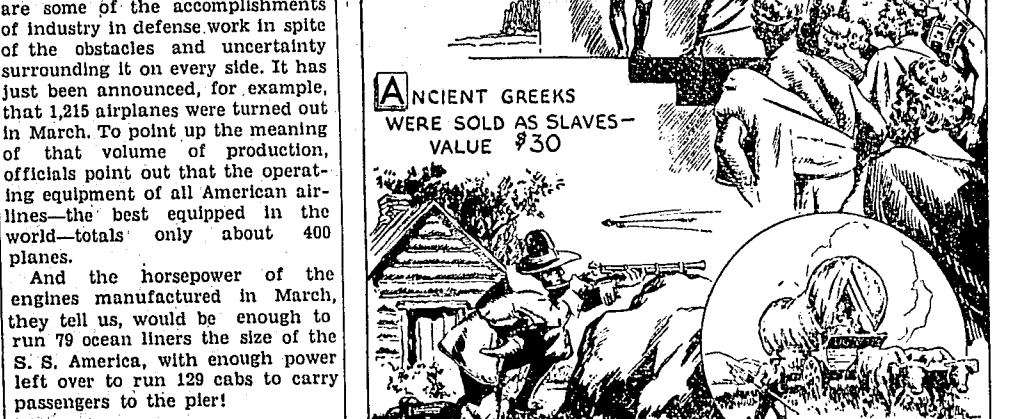

Another illustrative state position the \$9000. Motor Vehicle Commission is providing a subject for considerable political gossip.

From the various towns and cities are coming increasingly insistent questions on the disposition of the minor-court judgeships which the Democratic Senate and the Republican House are able to come to terms on the scores of resolutions before the legislature, the judgeships will be thrown in the lap of the Governor, as they were two years ago.

Encouraging, on the other hand are some of the accomplishments of industry in defense work in spite of the obstacles and uncertainty surrounding it on every side. It has been announced, for example, that 1,215 airplanes were turned out in March. To point up the meaning of that volume of production, officials point out that the operating equipment of all American airlines—the best equipped in the world—totals only about 400 planes.

LOOK at the FORD TRUCKS ON MAIN STREET!

IN VILLAGE town, and big city—on farms and on the highways—wherever you look, you see Ford Trucks at work. There are more than 100,000 Ford Trucks at work on the nation's hauling jobs than trucks of any other make!

There are definite reasons why. Truck owners want a truck with the power, performance and dependability that Ford Trucks deliver. They want economy that starts with low first cost and continues with low operating and low maintenance costs. Ford Trucks get what they want!

It's no wonder Ford Trucks are so popular on Main Street as on Broadway! And they'll add to their popularity once you try them on your job. See your Ford Dealer today!

MASS. STATE OPENS UCONN HOME SLATE

Yusievicz in Double Role As State Inaugurates Its New Diamond

The Connecticut baseball team will open its home schedule against Massachusetts State College on Saturday, April 19th. Mass State has always been a difficult rival and with a new coach in Fran Rice, they should again provide sturdy opposition as they have in the past. Last year, Coach Bob Carney's team was successful in beating Connecticut twice in very close games.

THIS BUSINESS OF Living

BY EUSABY SHAYNER

THE BEST FOOD FOR THE MOST PEOPLE AT THE LOWEST COST

They went foraging sometimes—those soldiers of the American Revolution whose rations consisted only of "beef, rice, biscuits, milk peas and beer" according to records in the office of the Quartermaster Corps in Washington. For meals often skimpy for hungry young men and almost always monotonous in a time when supplies were limited by the season and crude methods of transportation.

A soldier in the Army commanded by General Washington would rub his eyes if he could be at mess in any of the camps where American boys are being trained today. Golden oranges from tropical lands, fresh peas although it is only April, lettuce and tomatoes and half a fried chicken piece with potatoes and gravy, and ice cream (no desert! What is this anyhow?) A banquet or a soldier's dinner?

Noted Violinist At Woolsey Hall Monday, April 21

Whether he plays a Brahms sonata, a concerto of Mozart, Mendelssohn or Tschaiikowsky, music of Bach, Ysaay, Paganini, or Beethoven, the performance of Rudolph Suck of Vienna, Austria, will be an event to be remembered. Suck is to appear with the New Haven Symphony Orchestra on Monday, April 21st, at Woolsey Hall, in an evening of concert.

At the age of nine, when he made his spectacular New York debut in the Metropolitan Opera House, Rudolph Suck, now in his twenty-ninth year, has already had the power to command the attention of an audience with the first violin when you hear him play. His blazing virtuosity to bring his listeners to frenzied enthusiasm. Through the years, he has developed into a great electric emotional artist, and his programs more than ever achieve a breathtaking beauty and unforced simplicity and grandeur. Aided by his most efficient in the world, but a series of developments brought about by men and women working diligently under a system of free enterprise to achieve the results that have been possible. The program. The Southern New England Telephone Company.

A NEW HIGHWAY FOR YOUR VOICE

Twenty-six years ago, the first telephone call across the continent was completed from New York to San Francisco. Now the Bell System is constructing a new \$20,000,000 voice highway—a 1,600 mile cable from Omaha, Nebraska, to Sacramento, California. This will be the final link in an all-cable transcontinental telephone line. For protection, all but 60 miles of the new line will be buried underground by a "pilot train" which opens a trench about 30 inches deep. The cable in place, and covers it up—all in one continuous operation.

Communication facilities play an important part in national defense and these additional voice highways are viewed as a significant contribution to the nation's preparedness program. The Southern New England Telephone Company.
