ONE STEP AT A TIME

OUR town is a great business
corporation, owning vast prop-
erty, equipment, receiving and ex-
panding large sums of money;
and engaging in extensive busi-
ness for the benefit of the com-
munity. So reads a publication of
a near-by Taxpayers' Associa-
tion.

What applies to that town ap-
plies to Branford.
The town's source of income is
derived from the taxes levied
upon its property owners.

In other words the taxpayer
becomes a stock-holder in the
business of the town. He then be-
comes a business partner and has
a right to know how effectively
each public task is performed.

FOR NATIONAL DEFENSE

Money received by the govern-
ment for the United States Savings Bonds will be put
to work at once in the national
defense program to protect the
safety and freedom of the United
States.

CITIZENSHIP

A wise man said, "Tell me

what you are." It might also
have said, "Tell me what you do

will tell you what kind of a citi-
zen you are."

AN ENCOURAGING DEMONSTRATION

News of tremendous momentum to national defense progress was
announced in the press recently. It was reported that detailed data
on the availability of machine tools and other equipment in 18,000
previously unsurveyed manufacturing plants had been turned over
to William S. Knudsen, Director General of the Office of Production
Management.

UNDER THE CLOAK OF DEFENSE

Most sound thinkers in this country are agreed that the tremen-
dous burden of defense spending which the nation is now assum-
ing makes it highly desirable that non-defense expenditures be
reduced to the minimum. Examination of civil expenditures to see how and where
the activities of various government agencies may be curtailed is
being urged, not alone by outside economists, but by the Treasury
itself.

and everyone needs to carefully

everyone to be careful of his speech.

### The Anglers' Angle

Connecticut sportmen are beginning to wonder just how much they are going to get in the way of much needed legislation out of the current session of the General Assembly. Some of them have been pretty outspoken in their criticism of certain legislators who have given more time to questions of patronage than they have to the consideration and enactment of necessary laws.

### Branford Driver Acclaimed For Marathon Effort

Paul Birbrite, of Hillside Avenue, driving his midsize craft under the colors of the New Haven Teachers College where he is a freshman earned the title of the greatest driver in the race and the only midsize racer to finish the gruelling Albany to New York marathon run last Sunday when after eight hours and some minutes on the Hudson he crossed the finish line in New York City.

### Tight Defensive Play Likely As Locals Seek Sunday Win

Pitching Choices In The Dark But Branford Bats Prove The Local Ability To Come Back—Red Sox Work To Eliminate Costly Errors. The Branford Red Sox will open their home season this Sunday when they meet the Madison Boys Club at Hamner Field. Second selection John Rogers is slated to toss out the first ball and if he does please to place his pitch over the batter he may get the call from manager Chestnut to handle the pitching chores of the local nine.

### Rally In Seventh Gives Local Nine Win Over Chester

A powerful nine run rally in the seventh inning at Chester last Sunday enabled the brilliantly potent Branford Red Sox to down their favored opponents by a 13 to 11 count in the opening game of the Shoreline League. Chester pounded away at the offensive of starting pitcher Levesh and finally reached him for four runs in the fifth inning to push their total to 7 runs before Bob Levesh relieved the hand pressed local total. From that point on the game assumed different proportions as the tall Branford Point guard, Don Stiles, started to rain the batter's batters with machine gun rapidity on the strength of his excellent control.

### East Haven Romps Over Guilfordites

Continuing their unbeaten home record the East Haven High School nine plastered Guilford in their newly built field in the former town last Saturday when they surged forward on the strength of Harry Strickland's relief pitching to stink out an 11 to 5 win over the hapless visitors. East Haven had plenty of cause for worry when starting hurler McCarten was belted from the box at the end of the third frame and Ed Carey who followed him led off the bases in the fourth with a double. Defilippo walked, Gal Dovesi reached first on an error by the third baseman, and Walker walked. Then Butler hit a hot grounder to the third baseman who threw wild to first, causing the three men to score.

Boys Trained in Michigan Industry Help to Put China Back on Her Feet

DEARBORN, Mich.—A hundred young Chinese students who received a technical education a few years ago in Henry Ford's automobile plants today are using this training to help put China back on her industrial feet.
The Ford-trained youths have become first lieutenants to Rowi Alley, the New Zealander who originated the unique idea of vest-pocket industries to revive a nation left helpless by military invasion.
Equipped with a mechanical, engineering and administrative knowledge acquired in the Ford school system, the students started working with Alley in 1938 to put across the system of Chinese Industrial Cooperatives. At last count, these small "vest-pocket" industries numbered 5,000 units, producing 100 different items ranging from shoes to chemicals.
Kuan Pei Liu, former Ford student and now general secretary of CIG at Chungking, China, commented recently with Ford officials, explaining the important part his fellow students are playing in the cooperatives.
"Most of our key men are Ford men," he said. "All over China you will find Ford-trained men making use of their training. Most of them are on the road in technical work, some of them occupy high administrative positions."

A 'Baillie-Ford Boy'

DEARBORN, Mich.—One of the original "Baillie-Ford Boys" who came from China to get a technical training in Henry Ford's factories is Hsiang Kai Li (above).
Now a draftsman in the Ford power and construction department, Li hears frequently from his fellow "Baillie-Ford Boys," knows all the details of their success in helping rehabilitate China by means of "vest-pocket" industries.
Boys after their sponsor and the man who trained them. Today, as they work to rehabilitate China, they still refer to themselves as the "Baillie-Ford Boys."

Stretching the family purse to cover family expense was as difficult in the "good old days" as it is today. Food and taxes were lower then. But electricity and many other things were higher. But today, latest figures show that out of each dollar of average family income twenty cents now goes for taxes — for government — while less than two cents goes for electricity. Electric service folks are glad that their continuous effort to lower the price of electricity does its bit, however small, toward making the family tax burden easier to carry. The good new days are electrical days.
