Malleable Office Force Gives Surprise Banquet To Honor Willys Beach

Employee Completes 50 Years Service With Malleable
Iron Fittings Co.—Seventy Attend Party At Oasis—
Presented With Gifts.

Willys E. Beach was guest of honor at a banquet given at the Oasis Monday night by his fellow employees in the office of the Malleable Iron Fittings Company with which he has been associated continuously for the past 50 years. About 70 attended the affair which was a complete surprise to Mr. Beach. He was presented with gifts from the company and from his fellow employees.

Lester J. Nichols, secretary of the company, Arthur Jameson, sales manager of castings, and Frank Bigelow, treasurer, spoke briefly and lauded Mr. Beach's long faithful and efficient service. Herbert Gillis acted as toastmaster of the occasion.

A shed full of horses at that time were said to be the finest in town. There was no freight depot but the teams carted merchandise across the road to the baggage depot for transportation. The station then stood on the Malleable side of the tracks. Raw materials after came by boat.

WAS MESSENGER BOY
Mr. Beach was born in Branford and has spent nearly all of his life in this community. His first position which he secured in 1873 was that of messenger boy for the New York, New Haven and Hartford Railroad in Branford. He tells an interesting story of how he got his first step up the ladder by learning telegraphy on the fly. The operator had refused to teach him; but young Beach practiced in secret and became fairly proficient in the art. One day the telegrapher came in unexpectedly and found him receiving a message. Finding the young man's work surprisingly good, he reported the fact to the company supervisor. The result was that Mr. Beach secured a job with the Western Union in New Haven. He was later station agent at a small station on the Shore Line Railroad, from which he was transferred to a similar position in Branford.

It was while an employee of the railroad that a bolt of lightning hit the M. I. F. main building and young Beach looked across and saw the wing spread eagle atop the cupola on the main building waver under the force of the blow.

It took the hurricane of '38 to fell the eagle, however, and it has never been replaced.

He entered the employ of the Malleable Iron Fittings Company on November 1, 1891. The only person now living who was a fellow employe at that time is Lester J. Nichols who recently observed the 75th anniversary of his coming to the local plant. Mr. Beach has served in the M. I. F. in various capacities. He was office manager for a period of ten years and is now cashier of the concern.

Vastly different that end of town looked when Beach, Thatcher and Nichols made up the office force for Rogers Street and Kirkham street bridges were not in existence, there being simply grade crossings at those points.

The committee in charge of the banquet included Miss Mabel Goddard, chairman, Miss Florence Donado, Mrs. Maude Hoelzer, Miss Arlene Pierson and Mrs. Winifred Lacey.

Branford Police Make Grapnels

Through persistent efforts the Branford Police Department has added to its equipment until now it is qualified to undertake almost any first aid or emergency task.

Two grapnels were completed this week. In cases of drowning the force has been handicapped by having to dash around town to borrow something with which to drag the waters. Made by the officers the grapnels are said to be of the most satisfactory type.

Not long ago a stretcher outfit was obtained and a resuscitator-inhalator has been purchased with funds raised by voluntary subscription.

In December, they're having a lot of funtaging at their own lines and from what little we know about it the finished product should be just about tops in comedy. And there is no doubting the seriousness of this group in bringing good plays regularly before the public something that has been sorely lacking in Branford for some time now. It's the way they're going about this business of drama that leaves one with a feeling that all last we really have a dramatic group in Branford that we'll be proud to call our own. The actual date for the play has not as yet been set, (pardon, we forgot to say the play is named, "Meet Uncle Sally") but it is our intention to keep one eye on the Branford Drama Club so watch this column for future news. — S. What Nots

Irvin Baldwin says fishing terrible. Out all day and only caught eleven. Ducks not coming in. Weather too warm. Police finds collecting outfit for crippled children's home. He asked the boys and girls if they would have their bicycles inspected if he brought the necessary material to test the bicycles. He gave to us some rules to follow when you ride a bicycle. They were: 1—Have a light on your bicycle that can be seen at least 400 feet ahead, 2—Another light, about a bell or horn, a reflector, good tires, and a stand of some sort. I hope that the boys and girls of the Junior High will help Mr. Cowling and when he comes again be willing to have their bicycles inspected.

Former star athletes the Taylor Brothers, Merritt and Bob, received some fruit as a prize at the Ladies Auxiliary meeting last Monday. She claims it was peaches but we will bet that she didn't get as much of that luscious fruit as pretty girl Mrs. Taylor. Mrs. Taylor's very accurate in stories of early days at MIF. Suspect he is afraid if he mis-states he might get 30 Army bills for our boys given his job. Can't be he gets his honesty for facts from living with Tom Gardiner, Master of the Junior High School. The truth until he came under the good influence of Willys Beach. Some folks suspicion he hasn't told the truth since either.

Monday evening, November 10, at Woolley Hall the New Haven Symphony Orchestra presents the second concert of the current season. Music lovers of this area look forward to this concert with particular interest for the orchestra is one of the leading American artists of today, the lovely young soprano, Agnes Davis.

From teaching in the public schools of Denver to star at the Metropolitan Opera, the record of Miss Davis' rapid rise to fame. She was teaching physical culture in the Denver high school when she won national prominence as winner of the first prize in the Atwater Kent Radio Contest.

On the advice of the great conductor, Leopold Stokowski, she enrolled at the Curtis Institute of Music and there for five years she studied under the famous voice teacher, Emilio de Gogorza. After she had sung many roles with the Philadelphia Grand Opera Company, Stokowski engaged her as soloist with the Philadelphia Symphony and was so pleased by her performance that during the next few years she appeared no less than 38 times with that foremost American orchestra. When Stokowski recorded Beethoven's supreme Ninth Symphony, he chose Miss Davis for the soprano part.

Eugene Ormandy was so impressed by this recording that he immediately arranged for her to appear with the New York Philharmonic-Symphony Society.

With her appearance in New Haven, Miss Davis has chosen an hour from Mozart's "The Marriage of Figaro", Handel's "Samson" and Debussy's "The Prigdal Son". Conductor for the occasion is Richard Donovan, one of the regular New Haven Symphony conductors and a specialist in vocal music. The full program for the concert also includes Bach's famous "Brandenburg Concerto", a special Stravinsky Suite for Small Orchestra, and Chabakovsky's Symphony No. 2 in G minor.

"THEY MIGHT COME IN HANDY" But now and in the months to come no one is likely to ridicule our little piles of savings. Already "they're coming in handy," as industry begins to scrape the bottom of the storage space where there has always been such an abundance of metal—paper—of rubber—of lumber and oil. Plans are under way to make house-to-house collections of old materials for industrial use and individuals are beginning to rescue things out of the attic instead of always going downtown to buy something new.

Here's a Preview of 1942 Ford

DEARBORN, Mich.—A distinctive frontal design sets the style for the new Ford passenger car line for 1942, introduced recently at a preview for the nation's automobile editors. The new Fords will be shown to the public soon in all Ford dealers' showrooms. A rustless steel radiator grille blends gracefully with an entirely new front contour which features a new arrangement of headlights and parking lamps. Offered in three lines—the Super DeLuxe, DeLuxe and Special, the 1942 Ford has a distinctive trim for each series of cars. Engineering improvements emphasize comfort and safety. The Super DeLuxe and DeLuxe lines are offered with either the famous V-8 or the new Ford "60" engines.

Legal Notice

NOTICE TO THOSE LIABLE TO PAY OLD AGE ASSISTANCE TAXES:

The tax collector wishes to call attention to the fact that a large number of taxpayers failed to pay their old age assistance tax during the month of February, 1941. The law requires that these taxes be paid, and the Town has to pay the State its proportion even if they are not collected. The old age pensions are paid from this money and everyone agrees this is a most worthy object.

The law provides that if these taxes are not paid, the tax collector shall turn over the names of such delinquent taxpayers to the prosecuting attorney who shall issue a complaint and cause such delinquent taxpayer to be arrested and brought before the court. This of course will result in additional costs which will have to be paid by the taxpayer.

The tax collector therefore urges all taxpayers who are delinquent to see that these taxes are paid before December 1, 1941, because after that date the law will be complied with and warrants issued.

C. A. TERHUNE, Tax Collector
