

Recuperating in Solomons

Victims of a torpedo attack are shown as they appeared after receiving treatment at one of the many Navy hospitals in the South Pacific.

Happy Birthday

George Hansen observed his birthday along with Armistice Day.

Add one—Mrs. Leo Brennan, the 30th.

DEAR MOM

I looked at cards till nearly blind but nary a one did I find.

That conveyed my every thought to you.

And so I take my pen in hand to see if I can possibly say.

Things you've possible at this time of the very day.

I first drew breath upon this land. Today is your birthday and I say.

"I love you mother dear with all my heart."

Because of a war we are being kept apart.

But we'll be together again some day.

And when that great moment draws near.

When the boys trudge back with joyful tears.

I'll be there to say, "Hello Mom, I'm home."

I wish I were possible at this time for me.

To personally read to you this bill of poetry.

The next best thing that I can do is send it on paper along to you.

But before I bid you fond adieu I want to say now and here.

Happy Birthday Mother Dear!

Your Loving Son

ZEI

With The BOYS IN SERVICE

A friend gives information that Pierpont Warner of Pine Orchard is overseas.

Mr. and Mrs. Peter Bello, West Main Street, have received word of the safe arrival of their son Pfc. Victor Bello in Australia.

Chief Petty Officer Ambrose McGowan, has been transferred to Portsmouth, N. H., where he will be an instructor.

John Adams, son of Mr. and Mrs. George Adams, Sybil Avenue, has reported for duty as an aviator cadet.

Cpl. Robert L. Harnden of East Haven has written of his safe arrival in North Ireland.

Pfc. Malcolm M. Spahr, Mill Plain will attend an aviation school. He has been located in Panama for some time.

Aviation Student Herbert L. Barber is in a pilot's training school.

Harold Damborg, Weir Street has written of his arrival in England.

1st Lt. Joseph Bernard is in the South Pacific area.

Pfc. Julius Pohlman of Strong Street, East Haven writes from Sicily that he is well and busy.

John E. Lubecki, 89 Monroe Street, has graduated from the gunnery school, Sampson, N. Y.

Capt. Robert E. Kennedy, husband of Mrs. Robert E. Kennedy, William Street, East Haven has completed a course at the Medical Field Service School in England.

Edwin Foulton is on furlough and is spending several days with his family in Short Beach. He is with the combat engineers at Camp Chickamauga, Ga.

Pvt. Albert Willis is home from Camp Jackson, S. C. for 15 days.

Christmas cards received from Cpl. Oscar Roganson.

Pvt. Charles Fullerton son of Mr. and Mrs. William Fullerton was home for a few hours this week.

George Ahern, East Main Street, has qualified as a flying cadet and has been sent to Miami Beach, Fla.

Pvt. Albert (Buddy) Foulton was home from Camp Devens, Mass., for the week end.

Pvt. John Mihylek of Branford has returned to Camp Devens, following a week end visit with his family.

Prior to the arrival here of T-5 Ellen C. Thorpe, daughter of Mrs. Thomas Thorpe, East Haven and other members of the WAC contingent at Camp Hale, Colorado, the Army's two-mile-high training center, there were those who were skeptical that women soldiers would be able to adapt themselves to this high altitude and at the same time perform the duties—sometimes arduous—that they would be called upon to do.

It was admitted that at lower altitudes WACs were of inestimable value in taking over a job that otherwise some father would be drafted to do, but for Camp Hale—well, we'll see!

The following letter was received from Ted Buzovitz, a former employee of the Review:

Well, here I am somewhere in South America. Nothing more definite as to my whereabouts is permitted. It really doesn't make much difference what part of the continent I'm on—it's still a long way from home. But it's not half bad down here. It's not too warm during the day, and the nights are cool. The natives around the base are friendly, and come around selling pineapples and bananas, which can be bought for practically nothing. Everything on the station is swell. The chow, barracks, movies and canteen are the same as we'd have back in the U. S. The food can't be beat. Plenty of beer, candy and ice cream at the canteen.

Was into the city last night. Not much different from any American city. Trolleys and buses, and plenty of civilians driving cars. No gas rationing. The food in the restaurants is cheap. Half a fried chicken is 50c, steak is only 40c and it's served like water.

How's everything going up there. I'm still getting the Review. I'll bet it's the first time it's been down here.

As ever, Ted

Pvt. Stanley Sablowski spent the week end at his home in Home Place. He is stationed at Newport News, Va.

Cpl. John E. Zawacki of 18 Willford Avenue arrived home last night from Santa Monica for a ten day furlough.

Third class Petty Officer William Fortune writes to his family from the high seas, after leaving South America, that all's well and "I'll be seeing you soon."

BULLDOZERS FRONT AND CENTER

When the American Army moves it goes in the American way. At Pesto, Italy, 25 miles South of Naples the bulldozers and tanks of the American Expeditionary Force are seen in action. Gen. Mark W. Clark's invading force is seen moving up to the landing beach. The War Bonds you buy are helping to pay for the equipment shown in this photo. U. S. Treasury

Campbell Hopes For Continued Good Policy

The Connecticut Light & Power Company finding it possible to make a dividend for this year \$2.40 declared today a dividend of seventy-five cents a share payable January 1, 1944 to stockholders of record December 4, 1943. This payment will make a total dividend for the year \$2.40 a share compared with \$2.47 1/2 paid the previous year.

For a number of years prior to the war the Company had paid \$3.00 a share but when the effects of additional taxes and other costs connected with the war were realized, the dividend was reduced in 1942 to \$2.47 1/2, a reduction of fifty-two and a half cents or 17 1/2 per cent.

With the dividend just declared for the last quarter of the year, the dividends for 1943 totaled \$2.50 which is less than it was for the year 1942 and sixty cents per share or 25 per cent less than it was for the years prior to the war.

President C. L. Campbell expressed gratification that the Company had been able to get through the year 1943 as satisfactory as it had, and express the hope that the conditions which will be experienced by the end of 1944 will permit the continuation of a similar policy.

War Worker

Doctor is Jack-of-all-Trades At South Pacific Naval Base

PERHAPS he had contemplated, on his graduation from medical school, a plush Park Avenue practice—the quiet well regulated life of a diagnostician to the fashionable.

But global war has scrambled all those dreams and the potential formally-attired practitioner finds himself supervising the construction of a make-shift bomb shelter on a South Pacific atoll.

What our Navy doctors are doing along this line is told by Albert G. Mailed in "A Day With a Navy Doctor" in the December issue of Cosmopolitan magazine.

For his clinical study the author selected Dr. Henry Nesburn, medical officer at a South Pacific base.

"I had come to know all kinds of Navy doctors, from the weather-worn veterans of the cruises to the specialists who were working surgical and psychotic wounds in Auckland and New Caledonia," he writes.

"Yet if I had to pick some single one to stand as a symbol of all of them, I think I'd choose Nesburn."

GO AHEAD AND DOODLE, MISTER

It's an old American Custom

YES SIR! We've all drawn doodles—those hieroglyphics that we scribble on our pad when we are phoning—and we're going to continue drawing doodles just because we like to draw doodles.

WE Americans have many trivial little habits—like doodling—and a lot of big, important customs that we want to preserve, because all of these little and big customs piled into one make up our American way of life—a free way of life so dear to all of us.

AND because we are at war we must conserve vital materials—materials that will be plentiful again in the days after Victory. Fuel, manpower and transportation must all be conserved. That is why you can't afford to waste electricity or gas. All three of these vital elements are involved in their production.

THERE is no shortage of electricity or gas so you can use all you want for essential needs, but please, don't waste fuel, manpower and transportation by wasting electricity or gas.

Listen to "REPORT TO THE NATION" news program of the week, every Tuesday evening at 9:30 E. W. T. over the Columbia Broadcasting System.

THE CONNECTICUT LIGHT & POWER COMPANY

If you use Electricity Wisely—You Save Cool and its Transportation

How much does it cost to bomb Berlin ?

SUPPOSE, in the dusk of an English evening, 1,000 huge bombers soar over the Channel and head for Berlin.

By the time those planes return to England, their motors will have consumed 2,400,000 gallons of gasoline!

The cost . . . of the gasoline ALONE . . . will be more than \$380,000.

To pay for the gasoline used on ONE such raid, 96,000 Americans would have to invest at least 10 percent of their next pay check in War Bonds!

You get a big kick out of reading about those 1,000-plane raids. You know that such raids, if repeated often enough, will soften up the Axis. But . . .

What are YOU doing to help pay the cost of those raids? (In addition to the gasoline they use, it costs Uncle Sam TWO HUNDRED MILLION DOLLARS to build 1,000 4-motored bombers . . . plus the cost of training the 10,000 men who make up their crews!)

Modern war is expensive business . . . its cost runs into fantastic figures. 30,000,000 American wage earners are now putting an average of 10 percent of each pay check into War Bonds every pay day . . . but still it isn't enough!

Our air raids on the Axis are increasing in frequency and intensity. When land operations really get going, the cost will be staggering.

More and more Americans must join the Pay-Roll Savings Plan . . . more than those already in the Pay-Roll Savings Plan must begin to jack up their War Bond purchases . . . must start to invest more than 10 percent!

Remember . . . War Bonds are the finest investment in the world today. You get back \$4 for every \$3 you invest. And . . . the more War Bonds you buy now, the quicker the Axis will be licked . . . and the less the war will cost in the long run!

Think it over. And every time you're tempted to put a nickel in something you don't absolutely need—put it in War Bonds instead!

KEEP ON BACKING THE ATTACK!

COBBLERS always fill a deep longing—and this blending of apples and cranberries is truly something to file in the catalog of delicacies. A perfect dessert for any holiday occasion.

CRANBERRY APPLE COBBLER
2 cups cranberries
1 quart apples
1 cup sugar
1/2 cup water
1/4 teaspoon salt

Combine the cranberries, sugar, water, salt and apples in a saucepan and mix well. Cover and cook over very low heat for about 25 minutes. Remove from the heat and let stand covered while preparing the Cobbler dough. Pour into the baking dish lined with dough and dot with the

butter or margarine. Cover with crisp cross strips of the remaining dough. Brush with milk and bake in a hot oven (425° F.) for 15 to 20 minutes. Serve warm with cold or warm milk. Six servings. Make COBBLER dough as follows:

1 1/2 cups flour
2 1/2 cups butter or margarine
2 1/2 teaspoons baking powder
1/2 teaspoon salt
1/2 cup milk

Mix and sift the flour, salt and baking powder. Cut in the butter or margarine with two knives, or rub in with the fingertips. Pour in the milk and mix quickly just enough to moisten. Knead lightly for a few seconds on a floured board. Roll out the dough and use 3/4 of it to line the baking dish and the remaining 1/4 for crisp cross strips.

IT'S TIME YOU KNEW ---by LAWRENCE
SMOKE SCREENS ARE A NATURAL DEFENSE TO AN OCTOPUS WHO WHEN FRIGHTENED, EJECTS A DARK FLUID WHICH CLOUDS THE WATER AND PERMITS HIM TO ESCAPE UNSEEN. WHAT DEFENSES DO ANIMALS HAVE WHICH ARE USED IN MODERN WARFARE?
PLASTIC BUTTONS ARE NOW REPLACING BRASS ON ALL U.S. ARMY UNIFORMS! BESIDES THE SAVING OF STRATEGIC BRASS, WHAT MORE VITAL LIFE SAVING ADVANTAGE DOES THE PLASTIC BUTTON GIVE A SOLDIER?
EXTREMELY SENSITIVE MICROMETERS USED TO MEASURE PARTS OF BULOVA WATCHES CAN REGISTER THE THICKNESS OF A PENCIL MARK! TO WHAT FINE DEGREE OF ACCURACY ARE BULOVA WATCHES MANUFACTURED?
THE CASPIAN SEA IS NOT A SEA! IN WHAT COUNTRY IS IT LOCATED?

Answers to "IT'S TIME YOU KNEW" by Lawrence
In modern warfare, man has learned to appreciate the use of armor from the turtle . . . and natural camouflage which all animals and insects possess.
The plastic button does not reflect light and therefore will not betray the position of troops.
The Caspian Sea is in Russia.
Bulova watch parts are accurate to within one-tenth thousandth of an inch.

Heating System May Waste Fuel

Families who have changed their residence since last winter may be risking a critical waste of fuel, because of their unfamiliarity with operation of the heating system on which they must now depend for warmth and comfort.
In view of the limited supply of coal, this risk threatens not only their own individual welfare but, in the aggregate, may tighten the entire fuel situation this winter. Officials of the National Fuel Conservation Campaign point out that, because of war conditions, the total number of families who have moved in recent months has reached a new peak.
On the other hand, these families have an opportunity to keep their homes warm with less coal than the previous occupants, according to W. S. Anderson, Jr., chief engineer of Spencer Heater Division of the Aviation Corporation.
"By starting right," he explained, "families in new homes this winter can do much to eliminate one of the main causes of domestic fuel waste.
"The need for minor repair and adjustment of heating systems frequently was neglected in past years, when coal was more plentiful," Anderson pointed out. "These deficiencies become apparent to the new householder who learns the proper operation of his furnace, and they can easily be remedied by calling a local heating contractor."
As a first step in learning how to get more heat out of every ton of coal burned, Anderson recommends that new householders make use of the illustrated instruction booklets made available upon request to the manufacturers of each type of heater.

EAST HAVEN

Raymond Hanley Buried Monday

Funeral services for Raymond G. Hanley, Sr., a railroad employee and secretary of the Democratic Town committee, were largely attended from his late home Monday and in St. Vincent de Paul's church where a solemn high mass of requiem was said by Rev. Father William Myers, with Rev. Father William O'Brien as deacon, and Rev. Father John Buckley as sub-deacon.
James Cosgrove of Branford was the soloist and sang at the recessional, "Some Sweet Day." Bearers were Thomas Flynn, Dr. Charles Donadio, Harry Butler, Stephen Slattery, Patrick Kelly and William Schokett. Fr. Buckley read the committal service in St. Agnes cemetery in Branford.
Mr. Hanley is survived by his widow, Mrs. Mabel Hanley, and three sons and three daughters, Pvt. Raymond, Pfc. Walter, Thomas Bernice, Lovine and Claire Hanley.

Mrs. William Gallagher of Riverside who was a patient in Grace Hospital several weeks has returned home and is steadily improving.
A special exhibition of new children's books may be seen this week at Hagaman Memorial Library.

Tuttle School PTA meets this evening in the auditorium to hear Thomas F. Richardson of the New Haven High School teaching staff speak on "Adolescent Age."

WCTU Advises On Manpower

Half the manpower required to meet "minimum" production requirements could be available immediately if the liquor traffic were closed down for the duration, the National Woman's Christian Temperance Union declared today.
Pointing to the liquor industry's own estimates that, in peacetime 1,000,000 persons were engaged in production and distribution of alcoholic beverages, Mrs. Ida B. Wise Smith, W.C.T.U. president, estimated that stopping all liquor sales would free more than 400,000 workers for essential work.
"There are still more than 375,000 places selling liquor in the United States," she said. "Added to the thousands who are working in breweries and wineries, the employees of these places could do much to relieve the severe manpower shortages in factories, transportation systems, laundries and other essential industries."
Also, she said, thousands of farm

purchase of a Christian flag for the church.
