## Firemen's 15th Carnival Opens Monday Evening With New Attractions

Funds Realized Will Be Put Into War Bonds With Sum Set Aside For Gifts Of Hose Company Members In Military Service—To Be Held At Hammer Field

Captain Thomas Sudac of the M. P. Rice Hose Co. announced last night that his company will again sponsor an annual carnival on the Hammer Field background.

The carnival, the company's 15th, which will feature a week's run commencing July 10, and to the 15th inclusive, will include ferris wheels, flying horses, chair swing and other safe amusements for both the old and young.

A nightly event will be the daredevil high wire, no net, act of the three Cretonas, until this year an annual feature of the Ringling Brothers, Barnum and Bailey Circus.

Among the stands will be those for blankets, candy, merchandise, cigarettes and fruit. The carnival is under the direct management of Francis J. Kelley, as in previous years.

Funds realized will be used to defray the expenses of sending cigarettes and necessities of M. P. Rice Hose Co. men in service, numbering 33. The company has been sending these gift packages regularly for over a year.

As has been done in past years, the greater portion of the receipts will be invested in war bonds.

Mr. Sudac is assisted by Francis Tobin, Charles Witkowski, Cornelius Driscoll, Edward Driscoll, Peter Witkowski, John Sudac, John Bano, James Cosgrove, Peter Pauk, Chester Tisko, and Louis Lorcarno.

## DANCE PAVILION IS DEMOLISHED

Some fifteen years ago the Short Beach Pavilion was one of the most attractive, popular, dance places along the west shore.

Today it is being torn down for second hand material. The roof is already off and workmen have started slipping at the sidewalks. For several years now the building has been an eye-sore and several attempts have been made to demolish or dispose of it, but the title has been complicated so it has stood, rapidly rotting away.

Saturday evening crowds were once attracted there by such artists as Vincent Lopez, Rudy Valle and Paul Whitman.

Mrs. Charles Freeman has sold her home in Harbor Street to F. V. Armstrong.

## Two Accidents Mar Holiday At The Shore

Andrew Brown at Double Beach experienced an exciting time Tuesday. Beside having a large crowd there were two accidents.

The first call was shortly after 11 in the morning when Patrolman John Senstrand was dispatched to Double Beach to render inhalator aid to one John Grubler of 21 College Street, New Haven, who was seized with cramps while swimming, and according to the witnesses went down twice before being pulled to safety by three unidentified girls. He was removed to New Haven Hospital driven in the low ambulance by Patrolman Anthony Iffovick.

Patrolman Charles McCarthy, who was stationed at that point, immediately placed a call for assistance. Patrolman John Senstrand responded and with the town inhalator was able to revive the man, and Dr. A. S. McQueen, ordered the victim's removal.

Later in the day the ambulance was again summoned to Double Beach when Morton Cammerer, 17, of 17 James Street, Hamden, suffered deep gashes in his side and back while diving off the rocks. Patrolman John Ward, acting on orders from Dr. McQueen, drove the injured youth to New Haven hospital for further treatment.

This call came at the time of the plane crash at Hotchkiss Grove so Chief Woehle summoned assistance from the scene of the crash.

## Anna S. Finta Died Thursday

The death of Mrs. Anna Schmidt, Finta, wife of Stephen Finta of 118 West Main Street, occurred late Thursday evening at Grace Hospital, New Haven after a short illness.

Mrs. Finta, who has made her home here for 32 years, is survived by her husband, a daughter, Mrs. Clifford Prann of New York City, and four sons, Stephen, George, John and Joseph, also five grandchildren, and one sister, Mrs. Frances Miki, who lives in Pennsylvania.

Services were held from the funeral home of William S. Clancy and Sons, Monday morning at 8:30, followed by regular high mass at St. Mary's Church at 9.

Pallbearers were her four sons.

## DIES OF PNEUMONIA

Andrew Sewrukus of 23 Curve Street died Friday morning at New Haven Hospital following a brief illness of pneumonia. He was born in Lithuania and had made his home with Mr. and Mrs. William Lipkovich for 24 years. During that time he was employed by the M.I.F. Co. The funeral was held from the funeral home of W. S. Clancy and Sons, Monday at 10. Requiem high mass was celebrated from St. Mary's church at 10:30 and the burial was in St. Agnes Cemetery.

Mr. L. O. Cook of Washington, D.C., has purchased the old W. Classen home, Damascus Road.

## Postman Has World's Toughest Job

Says It Isn't His Feet That Both-er Him—It's His Heart—Hates Wrong Kind of Letters.

"No, it isn't by feet . . ."

"I used to like my job. Plenty of exercise and fresh air. Plenty of friendly folks along my route, naps when I brought them letters.

"Now I've got the toughest job in America. It isn't my feet that hurt these days—it's something else. Call it my heart.

"It's those official envelopes. War Department, Navy Department. Nearly every week now, one or two of them have to go in my bag, heavy on my shoulder. And my feet drag as I leave Main and Montowese. I hope nobody answers the bell before I can get away.

"Because I've been there sometimes when those letters were opened. I've seen the eager hands reaching for them, and then the white, stricken faces. I've heard voices whispering the first words aloud. . . . The Secretary . . . desires that I tender his deep sympathy . . ."

"What can a decent guy do or say at a time like that? I just turn and stumble off the porch and hurry on up Main Street. If my bag weren't so filled I should be tempted to stop at Carroll's or the Branford Candy Shop for a cool milk shake. Instead I go on hating my job. Hating the war. Hating Japs and Nazis so hard I have to grit my teeth.

Postmaster Joseph Driscoll says all his men dislike delivering to mothers, those bundles, containing clothes mailed home by sons immediately after induction. Says they leave the package, ring the bell and fairly run down the steps out of sight to avoid tears which

## War Bond Sale Gathers Speed Toward Close

It was announced today that the Fifth War Bond drive which officially closes Saturday has been extended to the first of the month.

Anyone not solicited, or late purchasers may buy direct from the post office where credit will be given toward the town's quota.

While the sale here got off to a slow start sales have gradually increased and district captains telephone daily reports which indicate that satisfactory results are now being assured.

Those who have faithfully been saving waste paper for several weeks will be given an opportunity of disposing of their securely tied stacks Sunday morning.

Salvage Chairman Harold Tousey asks that newspapers and magazines be separated and at the curb by 8 o'clock. If stormy collections will be postponed one week.

Volunteer truckmen will go through the streets of the Center, Indian Neck, Branford Point and Branford Hills. Collections will not be made in other sections, namely, Pine Orchard, Short Beach and Stony Creek where routine pickups are scheduled regularly.

Funds received by the sale will given into a fund with which to purchase playground equipment, to be set-up in Hammer Field.

## Lieutenant John Haas Meets Instant Death When Plane Crashes

Young Pilot Was From Neillsville, Wis., Stationed At Bradley Field—Investigation Ordered by Officials—Residents Under Cover Because of Thunder Shower.

An Army training plane from Bradley Field, Windsor Locks, crashed to the beach at Hotchkiss Grove in the midst of a heavy thunder and hail storm Tuesday, exploded, and caused instant death to its pilot, Second Lieut. John B. Haas, of Neillsville, Wis.

Public relations officials at Bradley Field say that a board of officers will be appointed to investigate the cause of the crash. So tremendous was the impact of the plane when it struck the ground that its nose dug out a crater in the rocky beach some 15 feet in diameter, and five feet deep. Fragments of the wreckage were strewn in all directions for 400 feet around and large rocks lying on the beach were hurled through the air by the explosion. Flames shot high above the trees.

Eye witnesses of the accident, stated that had it been a few minutes earlier or later, there would have been a possible heavy loss of life on the ground. The brief thunderstorm had driven people from the spot only a short time before the crash which occurred about 2:15.

Residents in the sector, just prior to the accident, stated the plane seemed low over the houses and seemed to be in trouble and smoking. It was apparently trying to make the water, but struck the edge of the beach at a rocky spot and was instantly disintegrated.

So blown to bits was the plane that salvage of parts of any size was impossible, but an attempt was made with a tractor from Municipal Airport to remove the engine from the crater.

Hurled by the impact, a 15-pound rock crashed through the roof and attic floor of the home of Donald Thompson to the upper porch, not far from where a two-year-old child was sleeping, striking an iron couch with such force that its leg was pushed through the hardwood floor.

Similar boulders knocked out the casement in the home of Earl W. Fredericks, broke a window in the car of Charles Callahan, and damaged the roof of a house owned by E. R. Hodggets and windows in the Harry Cooke house. These cottages were about 250 yards away from the spot where the plane landed. One of the plane's tires, and probably the largest piece of salvage, was hurled 100 feet away and up an embankment, 25 feet high.

Branford police were notified by Police Commissioner Charles Callahan and Chief Christian Woehle immediately sent Patrolman Anthony Iffovick. He also summoned the Indian Neck and Pine Orchard fire departments. They were followed by State Police, officials of the Municipal Airport, and from Bradley Field. At about 3:30 when Army and Navy officials arrived, a crowd of about 2,000 persons had gathered.

John Senstrand, patrolman, who was investigating an accident at Lake Saltonstall was sent to the scene and was followed by Patrolman John J. Ahern.

Until a State Police loud speaker arrived it was difficult to keep curious crowds back from the scene.

The Rev. Joseph E. Keegan, S.J., formerly of St. Thomas More at Yale, and now connected with Fordham University, who was visiting friends at the shore resort administered the last rites of the Catholic Church on the beach. Medical Examiner Arthur S. McQueen ordered William S. Clancy, undertaker to remove the remains of the body which were later taken by an Army ambulance to the parlors of Beecher and Bennett in New Haven.

## Liberated Italy In Great Need Of Materials

Although military authorities are providing great quantities of food and supplies there is still a need for supplemental aid for many recently liberated Italians, according to Juvenal Marchisio, president of American Relief For Italy, Inc., according to a report received today by Milton H. Glover, Hartford, President of United War and Community Funds, Inc., from the National War Fund.

In Branford, particularly in Stony Creek, collections of clothing have been made to be later sorted and repaired for shipment overseas.

Justice Juvenal Marchisio of the Domestic Relations Court of New York has been given a leave of absence from his judicial duties to act as president of American Relief for Italy, a member agency of the National War Fund of which Connecticut War Fund is a state affiliate. He succeeds Myron C. Taylor who has returned to his post as personal envoy of President Roosevelt to the Vatican.

Mr. Taylor who remains as chairman of the Board of American Relief for Italy has issued a statement as follows:

"Though in Italy, I shall continue to take an active interest in the work of American Relief for Italy and will have the opportunity to observe conditions there. All American citizens are interested in the people of Italy who are in need of assistance and it is my belief that caring for them in their hour of distress is not only a worthy expression of human sympathy but will restore good-will and aid world peace."

The program of American Relief for Italy includes various services to undernourished children, the aged and the sick. Provisions are being made for the shipment of vitamins, evaporated milk, cereals, infant foods and medical equipment. The program will include care for Italian nationals who are refugees in Egypt, Switzerland and Internes in Axis held countries.

Among the newly elected directors of American Relief for Italy are:

Ambassador William Phillips, former Ambassador Henry P. Fletcher, Luigi Antonini of New York, Supreme Court Justice Lewis A. Valentine of New York, Judge Frank W. Tomasello of Boston, George Baldanzi and Bernon S. Prentice of New York, John F. Cuneo of Chicago, Francis D'Amador of Rochester, Dr. Nicholas Dienna of Philadelphia and Lawrence M. Giannini of San Francisco.

## SPEAKS ON CIVIC PRIDE

At the regular meeting of the Branford Rotary Club held Monday at the Oasls Town House, the speaker was Edwin J. MacEwan, executive vice president of the New Haven Chamber of Commerce who used as his subject "Civic Pride." Thirty-four Rotarians attended the meeting, which was presided over by Frank J. Kinney, president. The visiting Rotarians were: Alvin P. Sanford of East Haven, and Elton Knight of Mount Vernon, N. Y.

BUYING ESSENTIAL

The response to the Fifth War Loan Drive in Branford has been encouraging, but still buying is essential if the quota for 'B' bonds is to be reached.
Why are 'B' bonds so important if the total subscriptions on all types of securities is reached and passed?
The answer is of simple one. 'B' bonds present the best, the surest method of (1) preventing inflation and (2) sharing in the burden of financing the war among many.

OPINIONS

Comment and Criticism of
Legal Interest from
Various Publications

When a bank or a corporation makes a purchase of Government securities, it doesn't mean that the money is being taken out of the market, which would otherwise be spent for luxuries or in such quantities that the price of commodities would be driven skyward. But when money that burns the pockets of people, the vast majority of whom are getting more than ever before, is stashed away in the purchase of 'B' bonds, these prices are not driven upward in an unrestrained way.

LAZY MANS TRIK

At expense and labor the salvage committee sometime ago erected a bin at the site of the old Center School. Its purpose was to serve as a deposit point for metal and the salvage and for a time served its purpose.
Yesterday, (looked closely) to be sure I wasn't seeing things) it was a messy, misty, a shabby vile collection of junk ranging from broken bottles and dirty rags to orange peels and vermin attracting garbage.

"Hello, Son... I Knew Your Father" By COLLIER

Electricity has long been so common in the United States that we are not conscious of its presence. We consider as commonplace services and products in our country, which would be looked on as luxuries in large portions of the world.

NO RATIONING OF FREEDOM

There are so many definitions for freedom. It is what you call an alluring word—because it means all things to all people.
Ask the small boy on a spring day and he'll answer you promptly, "No school and the fish biting." Ask the speculator, he'll say, "No restrictions—and a quick market." Ask the dictator and he'll say, "A fat neighbor who will not struggle against my divine right to take what I want."

LET'S ALL PULL TOGETHER

When a candidate for Congress in a Southern state remarked in a campaign speech, "Now I am going to do something that will tax your memories," a voice from the audience was heard to exclaim, "Heavens, are they going to tax that too!"—The Republican Woman.

Washington Snapshots by JAMES PRESTON

The reason why the Securities and Exchange Commission announced that all industry has plenty of working capital to reconform to protective operations without financial aid has become one of the mysteries of wartime Washington.

As evidence of this, take the lowly electric clock. Many electric clocks are seldom set after they are once plugged in. Well, what of it if you may ask. Nothing, except you don't think of failure in your electric service.

WHAT ROUNDS

Annual Japanese beetle invasion high success.—Conn. accidental deaths have averaged 1179 each year over the last ten years. Ages 10 to 16 safest.—Most critical 90. More men than women meet accidental deaths. Most accidental deaths occur in July.

A GOOSE IS TALKING

A goose of the barnyard one day walked alone. So fettered because of a wing that was gone. Anyway it was broken and none could restore. And he could fly up to his heaven no more.

READING & WRITING BY Edwin Seaver and Robin McKinn

Clifton Fadiman, editor and book critic, is now a member of the Editorial Board of the Book-of-the-Month Club. His appointment is the first addition to the Club's board, since the organization was launched eighteen years ago, with Dorothy Canfield Fisher, Christopher Morley, Henry Siddall Canby, Heywood Brown, who died in 1939, and the late William Allen White, as the five judges.

Information Please over which Mr. Fadiman presides as Master of Ceremonies, is popular with radio audiences not only for its sophisticated character, but also for the puns some episodes perpetrated by its participants. We were reminded of one in John E. Drewrey's "Post Biographies of Famous Journalists" when Expert Gurney, Gunther's reply was, "Sultany."

A Day's March Nearer Victory and Home

I walked off the troop ship that brought me home from France early in 1919 feeling as though I'd been away for years. Actually, I was overseas for only eleven months. But some of the men serving in this war first put on their uniforms in 1940 and they're still in there, fighting.
The last time we heard from our oldest boy, Jim, he was over in England all set to go. Now he may be in France finishing the job I started back in 1918. And more than two hundred employees of The Connecticut Light and Power Company—the company I work for—are in the armed forces serving in all parts of the world. Jim's letters and those from the fellows who worked with me tell the same story—more than anything in this world they want to win the war and come-back home.
That's what we all want—every one of us—and that's why my wife and I put every spare dollar we get into war bonds. Buying all the war bonds we possibly can is the best way we know to help win the war quickly. War bonds are more than an investment for our kids' future—the war bonds we buy today will bring Jim, or some other American a day's march nearer victory and home.

One MOTHER to ANOTHER

My dear Mother,

I know you feel that the protection of baby's health is a first consideration. You will want to be absolutely sure of the purity of your fresh milk supply. Call your local health officer if there is any doubt in your mind about its wholesomeness. Your doctor will specify whether he wishes you to use certified, pasteurized, evaporated or powdered milk. And I would tell him whether you have good refrigeration or are using a milk can. If you have a milk can, it is essential to keep the milk cold, for it may make some difference in the choice. Milk offers excellent conditions for the growth of bacteria so that existing cleanliness in the handling of it is an essential safeguard.

Containers and utensils used in the handling of milk should be rinsed first in cold water (never hot) then thoroughly washed in warm soap-suds—using a brush for inaccessible parts, such as the inside of bottles. You should turn nipples inside out and inspect the inside. I also suggest that you boil all articles in a large container for five minutes.

It is important to drain dry, and to keep them from dust, flies, and unnecessary germs. Wash your hands before you touch the milk or any surface with which it will come in contact.

Milk is the most important single food for infants, and one way to secure more of it is to adopt a two-cereal feeding plan. Serve ready-to-serve strained oatmeal at one feeding—then prepared cereal at the next. This gives variety to baby's meals—and baby likes a change of menu as well as you.

### Success of 5th War Loan Will Meet Acclaim of Men in Field and Prove Nation Is Backing Our Armed Forces

By Gen. Ike Eisenhower

"In moments of crisis involving the safety of our native land, the American people have invariably rallied against the danger with courage, faith and resolution.

"For the past two years we have been in one of these crises, perhaps the greatest in our history. On the battlefield and on the home front men and women are daily making great sacrifices so the freedom in our way of life may be preserved.

"There is now in progress the 5th War Loan Drive to raise money so as to insure that this conflict will be brought to the speediest possible conclusion and with the

least loss in lives. The complete success in the drive will meet the acclaim of the forces in the field and will be renewed proof that all Americans are one solid phalanx of determination in this great war.

"All of us profoundly trust that soon the world may be restored to a just peace. Until we can, with God's help, bring about that happy realization of our dreams, each of us must seek incessantly for ways and means by which the value of our services to our country may be enhanced. Right now we can do so by buying bonds. Let's make this particular victory a quick and decisive one."

### News About Rationing; Price Control

**FUELS**  
September 30—Last day for period Four and period Five coupons. All coupons worth 10 gallons a unit. New 1944-45 fuel oil coupons will become good for 10 gallons a unit upon their receipt by the consumer from local OPA boards.

**COAL**  
No delivery of anthracite or coke may be made unless the vendor has in his possession a signed statement of the prescribed form from the consumer, showing the consumer's annual needs for solid fuels, the consumer's inventory of solid fuels as of April 1, 1944, the name of the fuel dealer, the number of rooms to be heated and the type of heating equipment used.

**PROCESSED FOODS**  
Blue Stamps A8 through V8 in Book Four worth 10 points each. Blue tokens, worth one point each, used as change. Good indefinitely.

**MEATS AND FATS**  
Red Stamps A8 through W8 in Book Four worth 10 points each. Good indefinitely. Red tokens, worth one point each, used as change. Householders are reminded that red stamps now become valid every 4 weeks instead of every 2 weeks. Thus the number of points is reduced to 15 for every 2 weeks instead of 30.

**STOVES**  
Purchase certificates obtainable from local board.

**TIRES**  
All passenger car tire inspections have been cancelled as of April 20. Motorists holding only basic ration cards are not eligible for new or used tires. Drivers with total ration mileage (exclusive of special rations) of more than 125 miles a month may qualify for Grade 2 tires, subject to quota limitations. Applications should be made at local board. Owners of re-capped tires should have them re-capped at once.

**OFFICE HOURS**  
New daily office hours at 9 to 5 except on Saturdays when the office closes at noon. The room will be closed to the public all day Wednesday.

**Waste Paper On Job At Gloucester**  
U. S. Coast Guardsmen help unload wounded invaders at the ramp of Cape Gloucester, New Britain. Mechanical, medical and sustaining supplies are already loaded on shore. To give emergency treatment, the LST's officers' wardroom was converted into a make-shift hospital. Eighty-one tons of supplies, medical supplies, are required every month to maintain each fighting man overseas. It's a gigantic task that needs the help of every American. Save all the waste paper you can! Our invading Troops need your support.

### GARDEN NOTES

sponsored by Branford Garden Club Mrs. John McCabe, President

Mrs. Murray Upton, member of the Women's Division of the War War Service, is a member of the Branford Garden Club to "buy that extra war bond."

Branford Garden Club will meet at the home of Mrs. T. Howard Marlin of Pine Orchard, July 7 at 3 o'clock. Speaker, Mrs. Frederic C. Gardner of Chesire, an honorary member of the club, subject, "Continuous bloom in the Garden." Board meeting at 2:15.

East Rock Rose Gardens at height of beauty—well worth a visit.

Annual invasion of Japanese beetles can be expected at anytime now. Conditions have been favorable for the pest and the population will be about as abundant as last year. Prompt spraying is important. Hand collecting and trapping are definite aids as supplementary measures, although they will probably make satisfactory if they are relied upon as the only means of control. Beetles that have been hand picked may be killed by dropping them in a container holding water covered by a thick layer of kerosene.

Article on "Flowers in Language" by Maxwell Marston in "Garden Keeping" well worth reading—if you have ever wondered why flowers were named—you can find out quite a few.

Red raspberries are more hardy than the purple or black variety.

Some of the perennials for cut flowers which thrive in pots with morning and afternoon sunlight are: Phlox, Lily of the Valley, Amaranth, Japanese, Astor and Baby's Breath.

There is still time to plant gladioli. They can be set out right up until July 10th for bloom this fall. Double gladioli do well in spots of late start and can be planted until the middle of July.

### Red Cross Notes

For the month of June the local Branch reports are as follows: Garments 288; workers 84; Knitted articles 79; Afghan 1, knitted and donated by Mrs. Harold Baldwin.

The request for double the quantity of surgical dressing through the summer was not answered this past month, in fact the quantity made was a little more than half of that made in May. It is hoped that the seriousness of this situation will be recognized and a larger output for July may be required.

Surgical dressings 8,229; Workers 124; Hours 725.

There were 25 cases in the Home Service department during the home year of 1941. In June of this year there were 27, thirteen new ones. Home visits numbered 4, office interviews 10. Time 55 hours.

The number of Motor Corps members working in June was 13. Mileage for local work 102, for the year of 1941, 502. This work required 222 hours.

### MEMO To Mrs. Housewife

NATIONAL PRESS BUILDING WASHINGTON, D. C. By Anne Good

Ladies, beware the over canning method. It caused 85% of accidents connected with home canning last year, says the National Safety Council. ... boiling water bath and open kettle methods are safest.

Men are going to have more trouble buying good grade shirts than ever. About 40% of cotton shirts are going to our Allies.

Have you thought of cutting a cardboard model of your shoes and slipping it around the sole's edge to keep the sole's white where it belongs? Of course you'll want to go around the sole with a sole edge dressing.

Ice cream will be scarce in August, say Washington officials. Late summer slump in milk production is the cause.

Surveys show U. S. workers don't eat enough fruit. Try dipping pears in a mixture of lemon juice and sugar, then in melted vitaminized margarine. Roll in toasted wheat flakes and bake in moderate oven until tender. Serve with a sweet or sour sauce. ... Or make dessert fruit salads and serve with real mayonnaise. Both are good ways to get more fruit in the diet.

Due to cellulose shortage, many bakery products are being wrapped in waxed paper and glaziers are giving up their shiny dresses.

Don't forget to buy that extra war bond.

### Philharmonic Conductor Tours United States Rubber Company Plant

Woonsocket, Rhode Island—Expressing the desire to see what made the whole so round in one of the war plants of the company that sponsors his program, Dr. Arthur Rodzinski, conductor of the New York Philharmonic Symphony Orchestra and his wife were recently guests in the Woonsocket, Rhode Island, United States Rubber Company plant.

Arrangements for the Rodzinski's, Polish-born now naturalized Americans, came across many from their home country. Pictured above with the conductor and his wife, is Nellie Weick, business manager of the United States Rubber Company, and the plant's manager W. E. Little.

Highlights seen were war workers making the new ten man investment manufactured of synthetic rubber, the one, two, four, and seven man rubber life-saving auto mandatory equipment of the United States Merchant Marine.

# What news will Gen. Eisenhower get from us?

You know now what we've heard from him. We've heard that Eisenhower and his Americans have hurled themselves like thunderbolts against the bristling defenses of Hitler's Wehrmacht! We've heard that they are halting and smashing at our feet—spurring neither steel nor sweat nor blood in one final, furious assault that marks the supreme military effort of this War!

And what news do Eisenhower and his men expect from us? Men and women of America—what the Invasion is to our fighting men, the 5th War Loan is to us at home! For us, as well as for them, this is the crisis—the time for tremendous, overwhelming effort! Make no mistake! The 5th War Loan is the biggest, most vitally important financial effort of this War!

If the 5th War Loan is to succeed, each one of us must do more than ever before—must buy double... yes, triple... the Bonds we bought last time.

Our men expect to hear that we are buying double—that we are matching their sacrifice as best we can—that the American nation, soldiers and civilians too, is making one gigantic effort to win this War!

That's the news our men expect to hear from us. Will you personally see that they get it?

And here are 5 more reasons for buying Extra Bonds in the 5th!

- 1. War Bonds are the best, the safest investment in the world.
- 2. War Bonds return you \$4 for every \$3 in 10 years.
- 3. War Bonds help keep prices down.
- 4. War Bonds will help win the Peace by increasing purchasing power after the War.
- 5. War Bonds mean education for your children, security for you, funds for retirement.

NOTE FROM A HAPPY CHILDHOOD  
When I was a little girl, I found the school yard itself, an ice cream stand dispensing cones—chocolate and vanilla—in seemingly inexhaustible quantities to seemingly insatiable children, in exchange for pink tickets, of which one always had one's supply and one's parents' supply too. Oh, blissful, joyful night!

We youngsters didn't know or care, then, that Independence Day marked the founding of a philosophy of freedom in America. We were too busy living our freedom.
