PREVUES, VIEWS AND REVIEWS

BY PAUL H, STEVENS

HALF CENTURY OF STATE HIGHWAYS

We are informed in the current issue of "Connecticut Progress' a publication of the State Development Commission, that the Connecticut Highway Department, organized in 1895, is now at the half

In 1895 bieyele riders travelled to the edge of town or city for an outing and some hardy souls banded together to ride from town to zens' Committee headed by George town or from inland points to the shores of Long Island Sound. Long E. Munson, funds having been journies were invariably by steam cars. Farmers drove to town- made possible by voluntary donathose were in the horse and buggy days, remember-frequently, if tions and contributions from the they lived nearby; otherwise when mud and ruts permitted. A few townspeople. A list of those who docycle repair men were beginning to tinker with horseless carriages. nated to this fund appears else-Only a handful of men of vision could foresee then a statewide network of highways.

The State Highway Department began its work in a small way. quite successful. A much larger In 1901 the first "trunk line" system was proposed. For the first ten crowd is expected this Sunday and years repairs were a local duty for the towns. In 1905 however, the those attending are asked to bring, state moved to protect its investment and since that year has been blankets or folding chairs in order that they may enjoy the music in increasing its maintenance work. First it patched holes, then clean-ed culverts, then provided other drainage, then trees, then roadsides ed of the later time for starting, 3 and slopes, then snow removal and guide rail installations, then o'clock instead of 2:30. The third signs and pavement markings. From the first year's appropriation of in the series will be held Sunday, \$150,000 the annual expenditures mounted to the fifty-year high August 19. mark of over a quarter million dollars in 1942.

Only through statewide action and centralization of control has Democrats Will highway progress been possible, but in the process East Haven and her sister towns have lost a good measure of their one-time selfgovernment.

SUNDAY BASEBALL GAMES

Baseball fans in East Haven are enjoying some good games this season thanks to the Harry R. Burtlett post of the American Legion, the Tarbell family and the Board of Education. The Legion post is sponsoring the East Haven Reds, a baseball team which has games scheduled ends Sunday afternoon at 2.30 during the season with an cocasional twilight game Tuesdays at 6.30. The Board organical in additional in the season with an has provided the use of the High school Athletic Field and in additionable the bleachers in order that spectators may be be sate of oncers to be the being has made available the bleachers in order that spectators may watch the games in comfort.

Baseball is the Great American Sport and East Haven has many

fans, male and female, old and young, who enjoy seeing a good game. The kind of ball the East Haven American Legion Reds is playing this summer is the kind that should draw good crowds. Major Tar bell, one of our veterans, has whipped up a good team, and has been very ably assisted by Mrs. Tarbell, who is already well known for the interest she has taken in promoting local basketball, and by Phil Jr., who is a member of the team.

We believe the townspeople should back up these Sunday af

ternoon and twilight games by their attendance and good wiff. No and enjoy the games. When the new Memorial Athletic Field at Thompson and Dodge avenues is completed we believe East Haven admission is charged and the public is cordially invited to attend will become known as a good baseball town.

ANOTHER BAND CONCERT SUNDAY

Elsewhere in this week's NEWS we publish the names of more than three hundred residents of East Haven whose voluntary contribution of funds have made possible the series of Band Concerts on the Town Green this summer. These residents and business firms are deserving of much credit for their interest in providing this form of entertainment and recreation which has proven so popular. Considerable praise is due also to Mr. George E. Munson who started the ball rolling and who in turn passes on high gratitude to the members of his Citizens' Committee which worked tirelessly in putting

The Second in the series of concerts is scheduled for next Sun- so I though I'd write a few lines to Mrs. Otto Swanson of 470 Main the American Alea, Asia duty, has the American Alea, as a duty, has the America day from 3 to 5 o'clock. Aid For Servicemen Is Offered In E. H.

The Home Service Section of the Concert Sunday Red Cross whose responsively assist servicemen and ex-servicemen and their families in meeting men and their families in meeting day afternoon Band Concerts on man's service in the armed forces the Town Green will be held Sun- announces that there will be office day afternoon from 3 to 5 o'clock hours in the Town Hall each Wednesday from 10 until 4 o'clock beginning August 8.

This service will enable families of servicemen to receive help in claims for family allowances and affidavits when necessary. Home service also has the responsibility of giving men assistance with emergency furloughs, furnishing social histories when asked for by the military and securing famlly welfare reports when requested.

At hours other than those mentioned call Mrs. Eric Dohna, 4-1469; Mrs. Edward Whittlesey, 4-2703 or Mrs. A. P. Sanford, 4-0466.

Many Servicemen

Many from the Armed Forces are oming back to East Haven these days from distant fronts and exciting action. They are renewing old acquaintances on the street corners, in the drug stores, at the theatre and enjoying the long anticipated thrill of walking down Main street again. We cannot name all of them Meet Friday Night but would like to do so. There is but want for years in the Navy, Dan Dempsey, and many discharge four years in the Navy, Dan Dempsey, and many Grands food for the others and due home are Ed Si-

Shore Residents Seek Protection

A committee of three who stated and renters on Jamaica Court at the east end for Momaiguin appeared at the Town-Hall Tuesday night to request the Board of Public Safety to provide more ample police service at that part of the shore colony. According to a spokes man for the group youths, said to be from New Haven, have been making life miserable this summer for cottage dwellers on Jamaica Court, through trespass viilifieation, and other alleged misbehavior. They asked for increased police protection in that area which abuts the Mansfield Grove section.

Selectmen To **Hold Session** Friday Night

The Board of Selectmen will meet this Friday night in the Town Hall to transact town business. On the agenda will be a discussion of the session of the Legislature concerning creation of a Board of Park Commissioners for East Haven, It has developed that no notice of the act has been received by the town clerk and although the bill passed on the last day of the General Assembly it has not been ascertained if Governor Baldwin signed the measure.

The selectmen are also slated to pick a member of the Board of Finance, the term of Robert H. Gerrish having expired yesterday. The health officer post is also due for discussion and it is understood that at curb early Sunday morning. Dr .Ovilda C. Grenon who is acting health officer since Dr. Robert M. Taylor left for active Naval duty Arriving In E. H. Thylor left for active Raval dates

ing the statement, made the fol-

Many of these projects call for de may also produce electric power.

> This involves issues that should be discussed and settled now-rivers to cross in

Many of us in the power business have had a long experience with riverside plants, in the production of both steam-generated and hydro-electric power. In fairness to all taxpayers and in the interest of the many million users of electricity, we think we ought to outline our convictions and suggestions on river development and flood control.

When a dam is proposed, all of its purposes should be clearly defined in the legislation flood control, navigation, irrigation or power. And just as clearly, the benefit to the people affected should justify the cost.

2 If power is produced at government-built dams, it should be sold to existing power systems, without special privilege or discrimination. This will save expensive duplication

RIVER development and flood control rank of transmission facilities, help co-ordinate the high on the list of America's post-war plans. entire power supply of each region, and assure its widest possible use at the lowest practical

> 3 Any savings made possible by this plan should be passed along to the users of electricity, under regulation by State Commissions or other properly constituted regulatory bodies. This will assure all the benefits of river development and hydro-power without the added expense of government going into business and competing with its own citizens.

> 4 Government in any business endangers all business. Government in business escapes many normal business obligations, enjoys free mail, pays no federal taxes, and few, if any, other taxes, little or no interest. If government can sell electricity on this basis, it can sell shoes, groceries, automobiles, or anything else the same way. Government may properly regulate business in the public interest but should not operate business. It should not play in the game for which it makes the rules. In other words, government should not try to be umpire and pitcher at the same time!

VERY YEAR in peacetime hundreds of thousands of summer visitors sign the registers of New England's hotels and inns.

They come from the world's richest travel market-New York, Pittsburgh, Washington, Baltimore, Philadelphia, Newark, which are served directly by the New Haven Railroad: and from southern and midwestern points by railroads which connect with the New Haven through New York.

Two and a half million vacationists came to New England in the last peacetime year and left \$500,000,000 in New England's pockets.

Why did they choose New England?

Because of New England's attractions . . . and because

Tomorrow visitors will come in even greater numbers. For with all of New England's great natural and his toric resources as alluring as ever, the future of New England's recreational business is limited only by how attractive we all make it for our guests.

they were sold on New England . . . sold by those who

had faith enough in this area to spend their good money

to promote it. Among the most aggressive, consistent

promoters has been The New Haven Railroad.

The New Haven will be ready with service and equipment such as your vacationist never knew before . . . and with a sales campaign unequalled in our railroad's
