

Heather Burns Page, Ph.D.

Heather Burns Page, Ph.D

Biography:

Heather Burns Page has dedicated over twenty-five years to science education and school leadership within New York City's public schools, currently serving as principal of the Baccalaureate School for Global Education, an IB World School in Queens. With a doctorate from NYU focusing on encouraging girls in science and recognized with a 2015 New York Times 'Teachers Who Make a Difference' award, Heather strives to cultivate global citizens and environmental stewards. Her commitment extends to exploring nature through extensive travel with students to Eastern and Western Europe, South Pacific, Central and South America. Heather completed two global study programs in Africa with New York University and circumnavigated Iceland as a 2016 National Geographic Grosvenor Teacher Fellow. An alumna of East Haven High School, Heather now resides in New York City with her fiancé and their rescue pup, Nugget.

Women and Girls in STEM Fields provides wide-ranging, complementary coverage of every aspect of the issue, from the historical barriers that confronted generations of American women and girls interested in pursuing careers in various STEM disciplines to the laws and movements that dismantle some of those obstacles. Features include smartly organized chapters on major trends, issues, debates, and historical moments; carefully selected profiles of the key organizations and individuals that have shaped discussions of this subject in Washington, D.C. and across the USA; a suite of original essays from educators, scholars, and women writing about their firsthand experiences in today's STEM world.

Cost of the book: Ms. Page will bring copies of her book to the showcase. Copies are \$60 each and she takes cash and Venmo.
